INTRODUCTION

- Scythe was created in 2022 as a ERC-20 meme token with utility on ETHEREUM NETWORK, with the symbol SCYTHE.
- We chose ETH, because we wanted to prove that a solid project can still live in this space, free from rug pulls and scam tokens.
- We will completed the process Smart Contract Audit prior after launch.
- We be transparent with our communication and respectful of all opinions.
- The Team is committed to delivering first-class service and utilities to our valued holders and members.
- Together, we will GET \$SCYTHE to The MOON.

OUR MISSION & VALUE

- SCYTHE looks to stand apart from other meme tokens by focusing on community spirit and bringing TOTAL VALUE to holders in a safe and secure manner.
- We value transparency, respect, and inclusion.
- We understand community strength will drive us to success.
- We will always act ethically and responsibly.

We offer NFT collections to trade and collect in our marketplace, we give appreciation to art to be applied to blockchain to be of value to our platform users

The **auction** is fully managed on-chain through a dedicated smart contract, ensuring transparency, confidentiality and regularity of execution for all parties involved. In addition to ours, NFT artworks will sold in the most important marketplaces in the crypto space where they are most likely to meet their admirers.
